Prof. Dr. hab. Piotr Wroczyński

Dean of Faculty of Pharmacy with Laboratory Medicine  
Medical University of Warsaw

I would like to welcome warmly all students of the Faculty of Pharmacy at the Medical University of Warsaw. For ninety years our faculty has been engaged in education and research of pharmaceutical sciences, graduating several generations of well-educated pharmacists who have been working in research and development fields as well as in the healthcare system. Nowadays, our faculty is recognized as one of the leading academic centers in Poland. Our curriculum of pharmacy meets the requirements of the Ministry of Science and Higher Education of the Republic of Poland. As the students here you will benefit from the innovative optional teaching programs: analytical pharmacy, clinical pharmacy, industrial pharmacy and pharmaceutical biotechnology, drug design, pharmaceutical cosmetology with esthetic medicine, pharmaceutical and environmental toxicology. A well-equipped library and a recently built recreation center will help you study and keep fit. The location of our faculty in the heart of the capital city of Warsaw is another advantage. It will give you a good opportunity to discover Polish history and culture as well as to participate in the vibrant academic life. I hope that studying at our Faculty will contribute to your professional, social and cultural development so that when you have finished the studies you will leave Warsaw with fond memories.

## THE ENGLISH PHARMACY DIVISION

### Why should you study pharmacy at the Faculty of Pharmacy, Medical University of Warsaw?

As a student, you will have the opportunity:

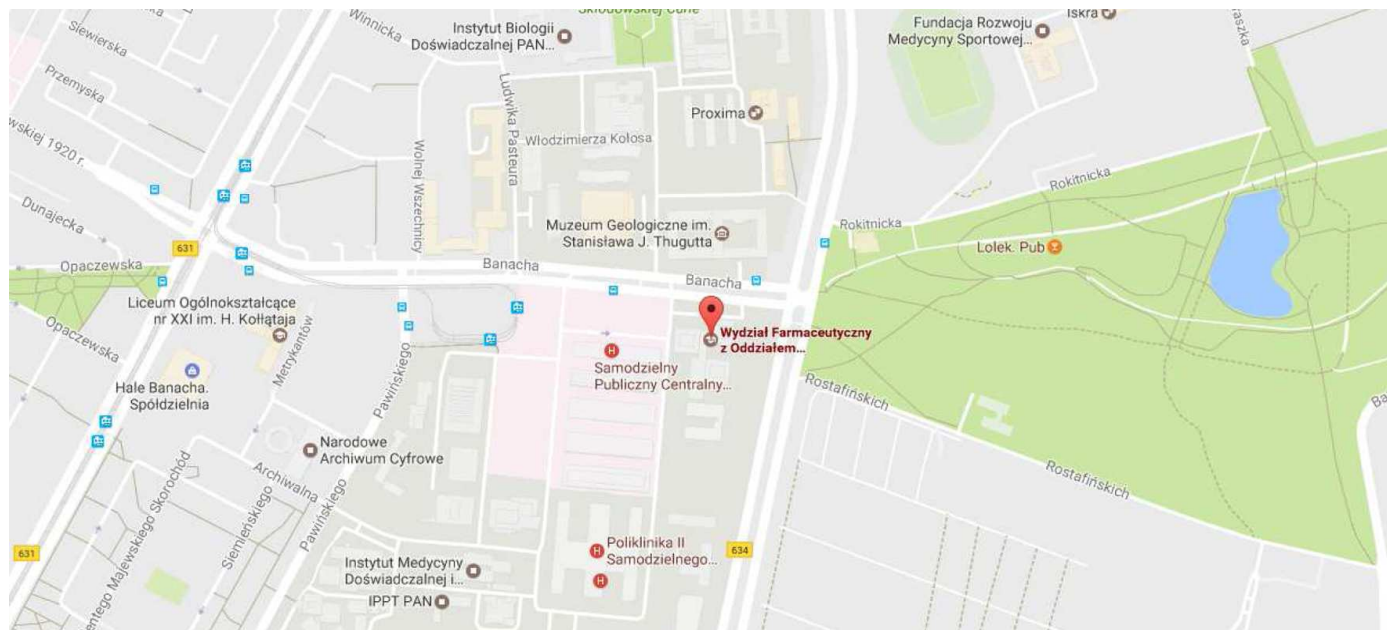

- ▶ To become a well-qualified pharmacist with a diploma recognized in all EU countries.
- ▶ To conduct original research under faculty mentorship.
- ▶ To participate in Erasmus program.
- ▶ To have access to well-equipped laboratories and a comfortable learning environment.
- ▶ To obtain a higher education qualification at very competitive prices.

The Faculty is recognized as one of the leading centers for Pharmacy education in Poland and enjoys a national and international reputation for research and innovation. Advanced teaching, clinical and experiential placements as well as business skills programs provide our students with a well-rounded and professionally relevant pharmacy degree, putting them in high demand with employers. Our five-year undergraduate pharmacy course leads to the degree of Master of Pharmacy (MPharm) and, after a further six-month pre-registration training in an approved pharmacy, to being registered as a pharmacist in Poland. Polish registration is recognized in other member states of the European Union.

As a Master of Pharmacy student you will:

- ▶ Be taught in a faculty with more than ninety years' experience.
- ▶ Be taught by academics who are experts in their fields.
- ▶ Be able to assume prominent roles in all aspects of the pharmacy profession and be leaders in innovative, evidence-based practice.
